Objective

Computer Science graduate and IT Intern working as a Full Stack Developer. Experienced in leading modern web projects, API integration, and IT infrastructure maintenance. Seeking professional growth through innovative and scalable solutions.

Key Leadership & Achievements

- **Web Project Technical Leadership:** Led the end-to-end (Full Stack) development of the company's new commercial website, defining the architecture and technology stack (Next.js and TypeScript). Delivered a modern, responsive platform by integrating dynamic interfaces with robust back-end services.
- **Critical System Restoration:** Proactively led the recovery of an essential HR ERP system following a critical failure, coordinating root cause analysis and ensuring business continuity.

Professional Experience

Centauro Engenharia   Rio de Janeiro, Brazil

IT Intern / Full Stack Developer   *Jun 2025 - Present*

- **Commercial Website Development:** Responsible for creating the company's new institutional website (Next.js, TypeScript, Tailwind CSS). The project integrates advanced API features, including an **Intelligent Chatbot** (Google Gemini) for automated customer support and **Resend** for processing and sending "Contact Us" form emails.
- Maintained and developed new features for an internal web portal using PHP, JavaScript, and SQL databases.
- Administered users and permissions via Active Directory (Windows Server) and managed Microsoft 365 licensing.
- Managed backup routines and monitored security for critical corporate network data.
- Provided specialized technical support and resolved software incidents, ensuring internal team productivity.

Skills

- **Frontend Technologies:** Next.js, TypeScript, React, Tailwind CSS, JavaScript, HTML, CSS.
- **Backend & API Technologies:** Node.js, PHP, Python, SQL, REST API Integration (Resend, Google Gemini/AI Studio).
- **Tools & Infrastructure:** Active Directory, Microsoft 365, Git/GitHub, VSCode, Power BI.
- **Languages:** Portuguese (Native), English (B2).

Education

Instituto Brasileiro de Medicina de Reabilitação - IBMR   Rio de Janeiro, Brazil

Bachelor of Science in Computer Science   *Jan 2022 - Dec 2025*
